

Become a Better Storyteller and Implement a TMF Maturity and Process Model

Donatella Ballerini

Head of eTMF Services @ Montrium

Agenda

- The meaning of process
- Elements of a process
- Maturity Level: assess and evaluate
- Three dimensions of inspection readiness
- Montrium eTMF Services

WHAT IS A PROCESS?

- Final goal
- Book the flights
- Book the hotel
- Prepare your bags
- Check the passport
- and....
- Take the flight!

A set of activities and/or tasks to get a specific result

Is the Trial Master File a process?

- a) Yes
- b) No
- c) I don't know

TMF is

- How do you collect the pieces of the story?
- How do you ensure the quality and consistency?
- How can you ensure compliance?
- How do you guarantee the completeness?
- How do you ensure inspection readiness?
- How do you document the quality check?

What are the main activities to be performed and when?

TMF STEPS

What do you want to achieve? Completeness, quality, timeliness, compliance?

TMF PROCESS

Who is going to perform this activity? Who is responsible and who is accountable?

TMF GOALS

TMF STAKEHOLDERS

START FROM THE
END (GOALS AND
OBJECTIVES)

PLAN AND MAP
YOUR ACTIVITIES

SET ACTIONS AND
ASSIGN
STAKEHOLDERS

TEST THE
PROCESS

IMPLEMENT THE
PROCESS

MONITOR THE
RESULTS

REPEAT AND/OR
IMPROVE IT

INSPECTION
READINESS

COMPLETENESS

QUALITY

How do you ensure TMF inspection readiness?

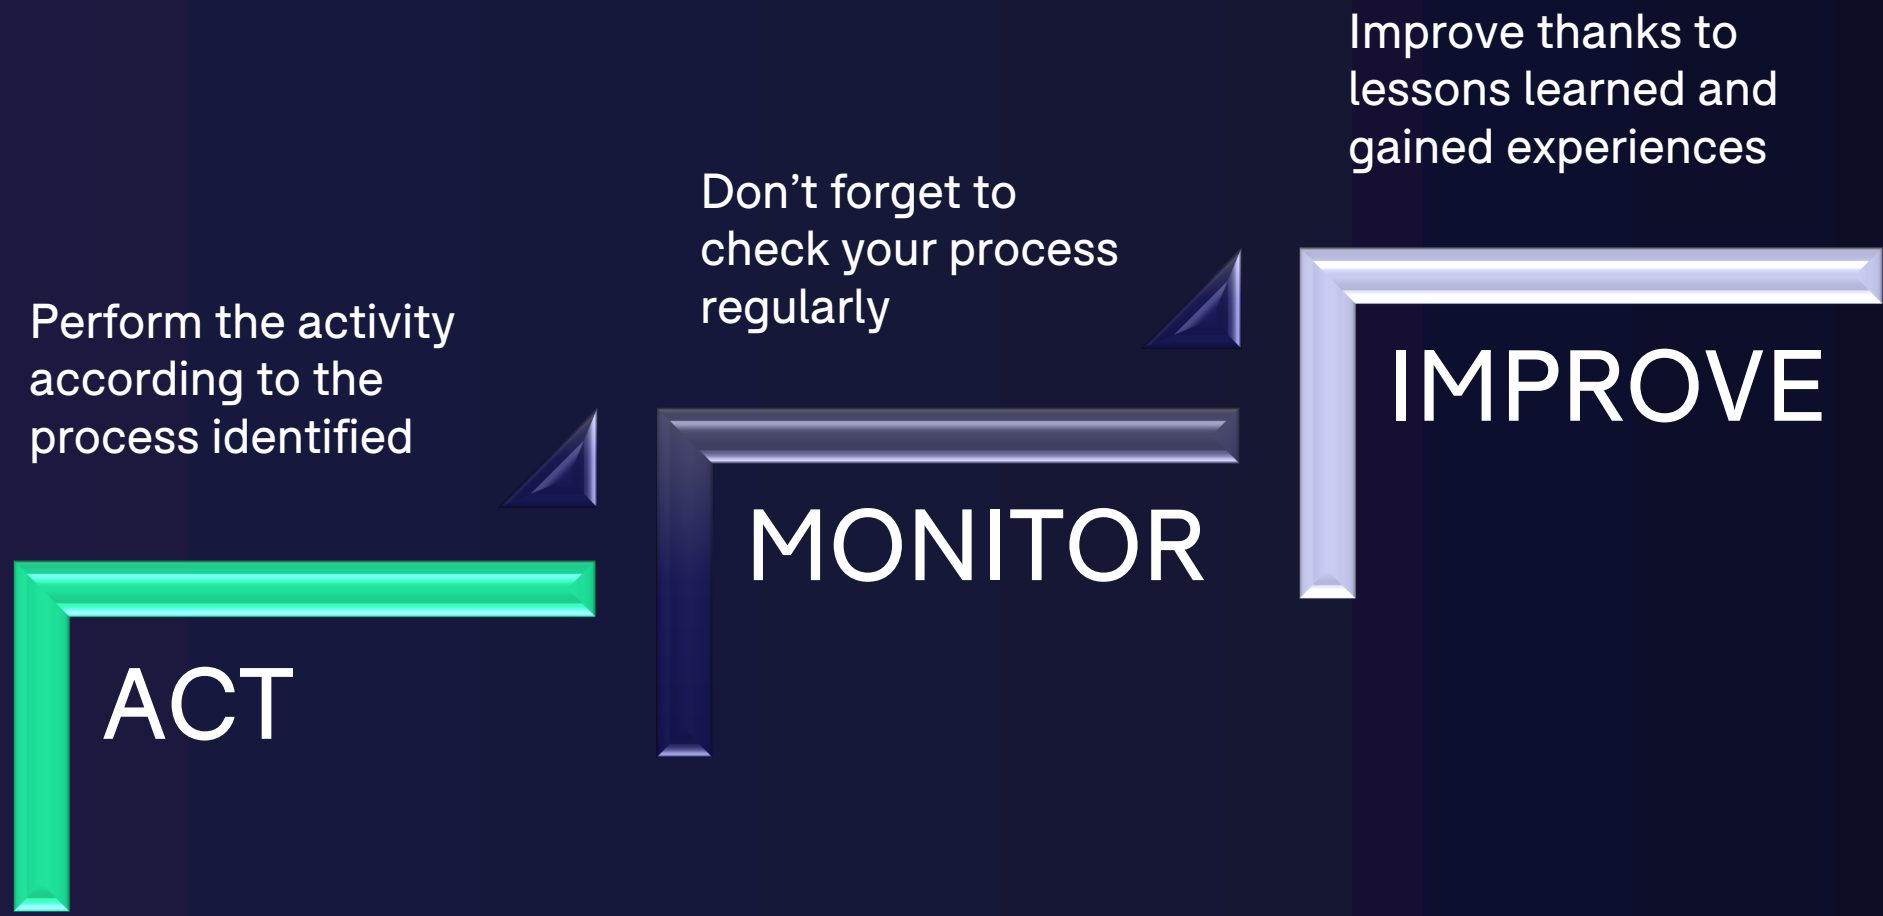

- a) By regularly monitoring my TMF
- b) By using metrics and KPIs
- c) By developing a robust process
- d) All the above
- e) I don't know

- How to achieve my goal?
- What are the activities?
- What are the tools?

- Who is going to do what?

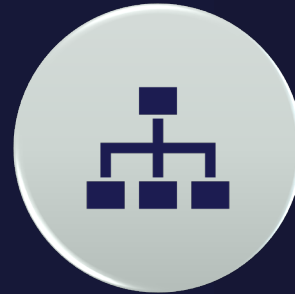

The process is a dynamic aspect of your TMF management

REGULATORY
REQUIREMENTS

ORGANIZATIONAL
CHANGES

IMPROVEMENT

Do you know the maturity level of your TMF process?

- a) Yes
- b) No
- c) I don't know what that is

Evaluation and
assessment to
identify:

Gaps

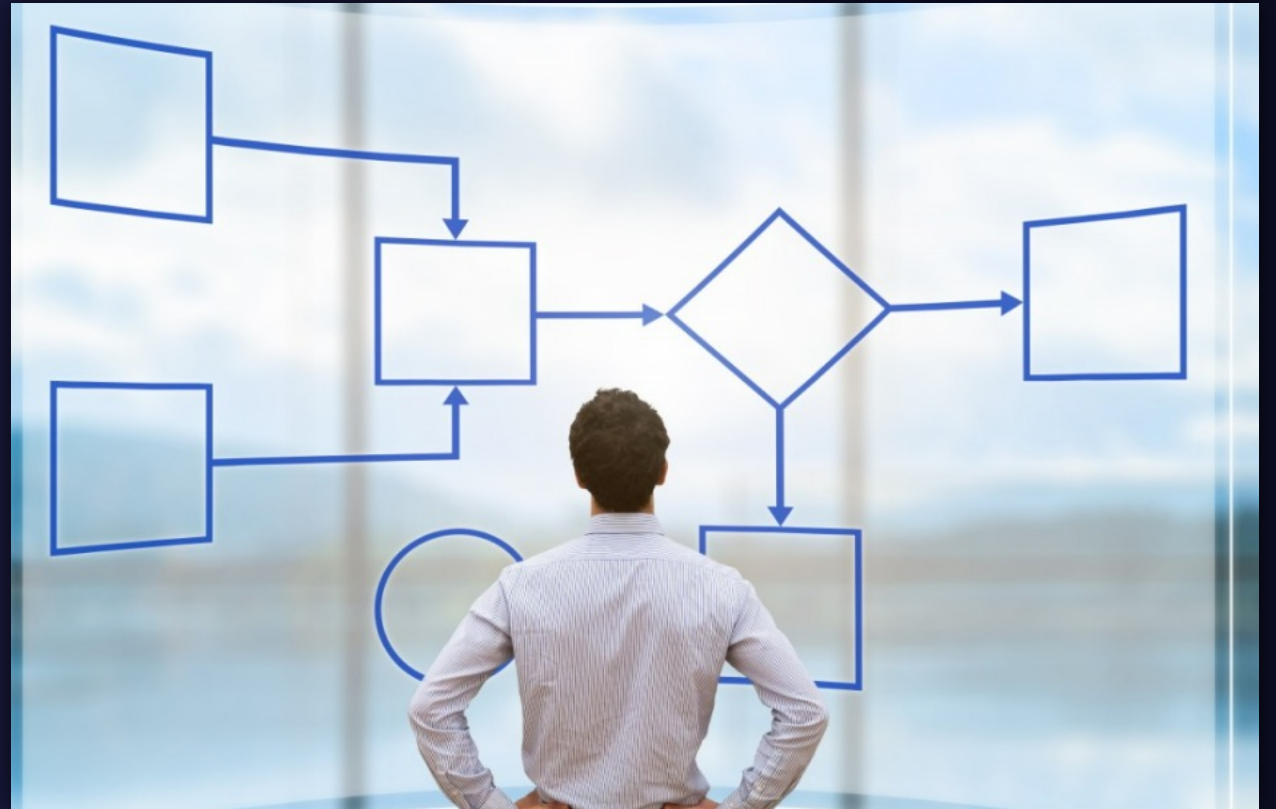

Priority

Future state

Gaps:

- What is not covered with the actual process?
- What are the missing steps?

Priority:

Risk-based approach to
better allocate
resources and time

Future state:

- Best practice
- Industry benchmark
- Final goal

What are the other dimensions (in addition to the process) that are fundamental to TMF management?

- a) People and Technology
- b) People and Business
- c) Technology and Study Design
- d) Technology and Regulations
- e) I don't know

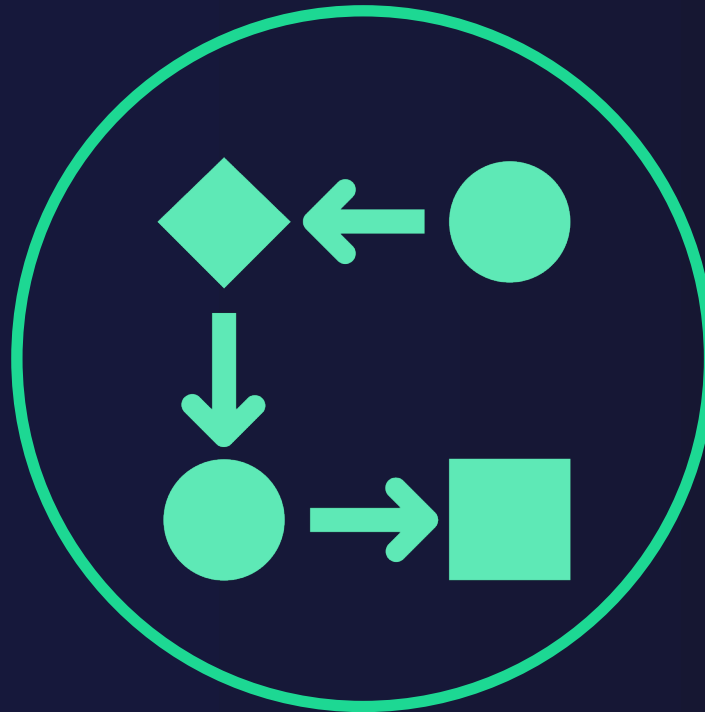

Training people

People and technology for a robust process

Technology to support

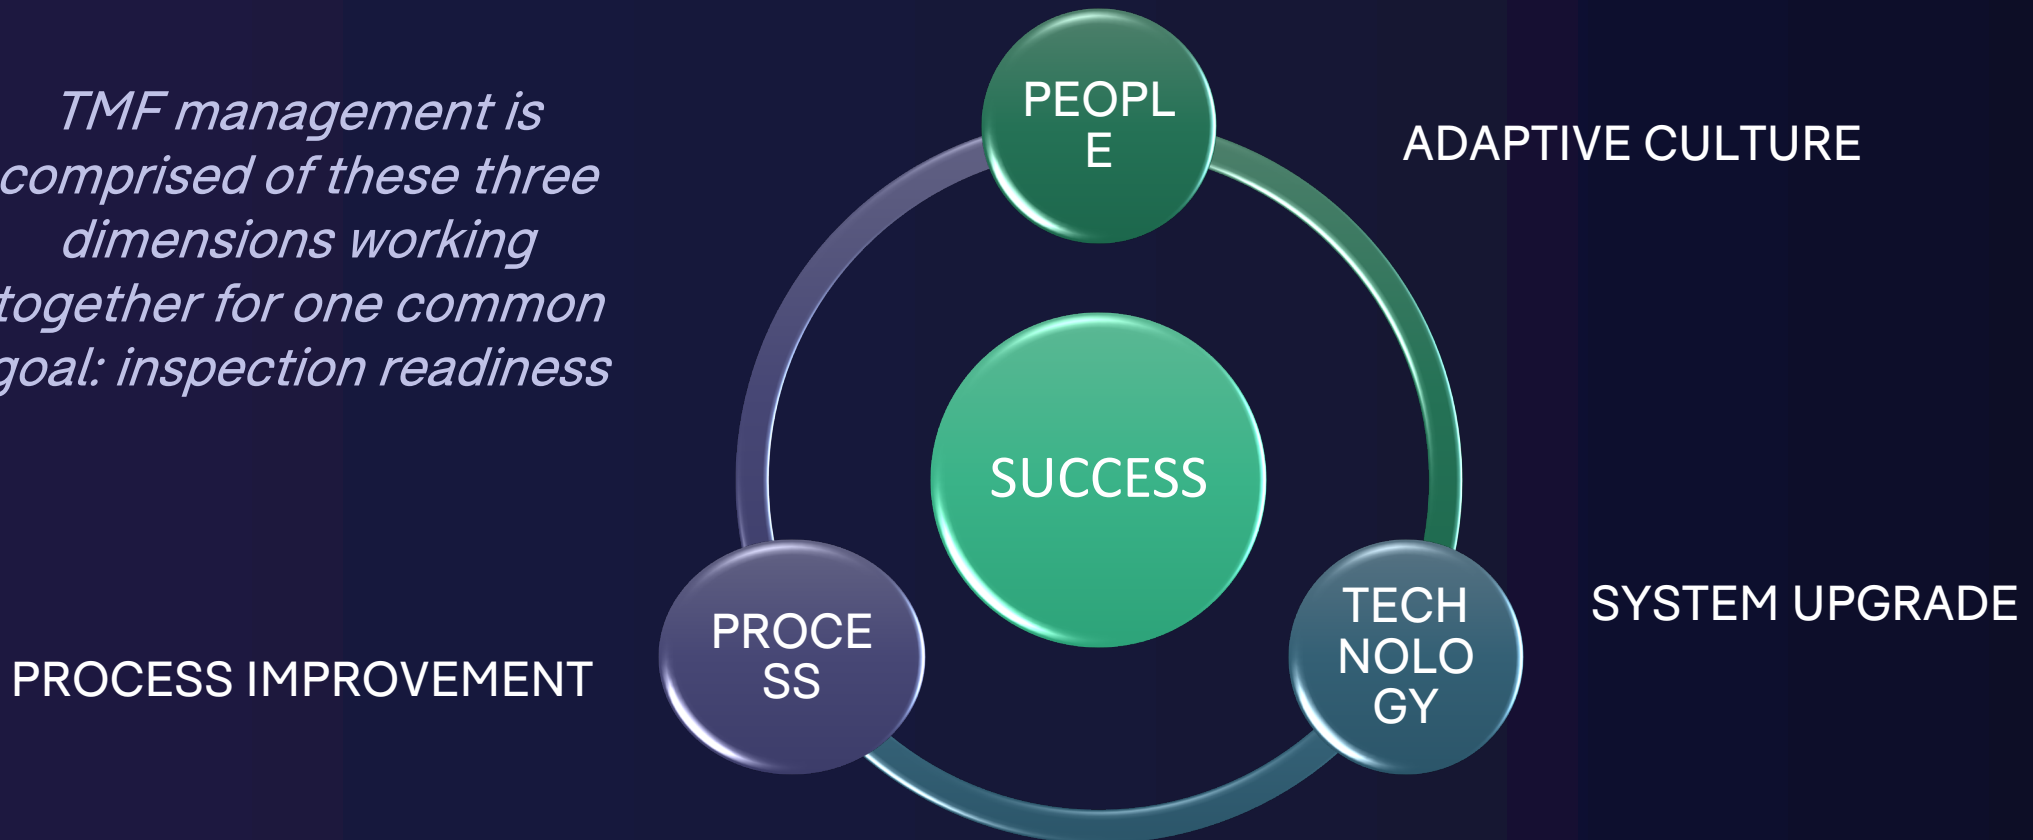

People, process & technology for inspection readiness

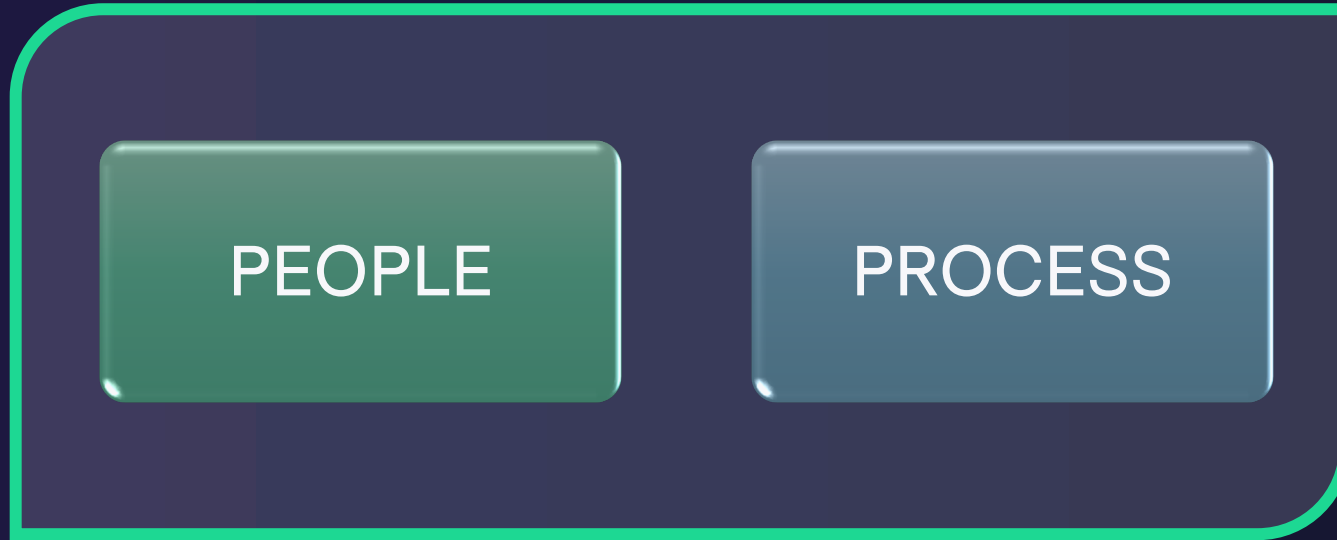

Technology as a supportive tool for the process and people

Innovation and continuous improvement enabled through process excellence and high-performing organization culture

TMF management is comprised of these three dimensions working together for one common goal: inspection readiness

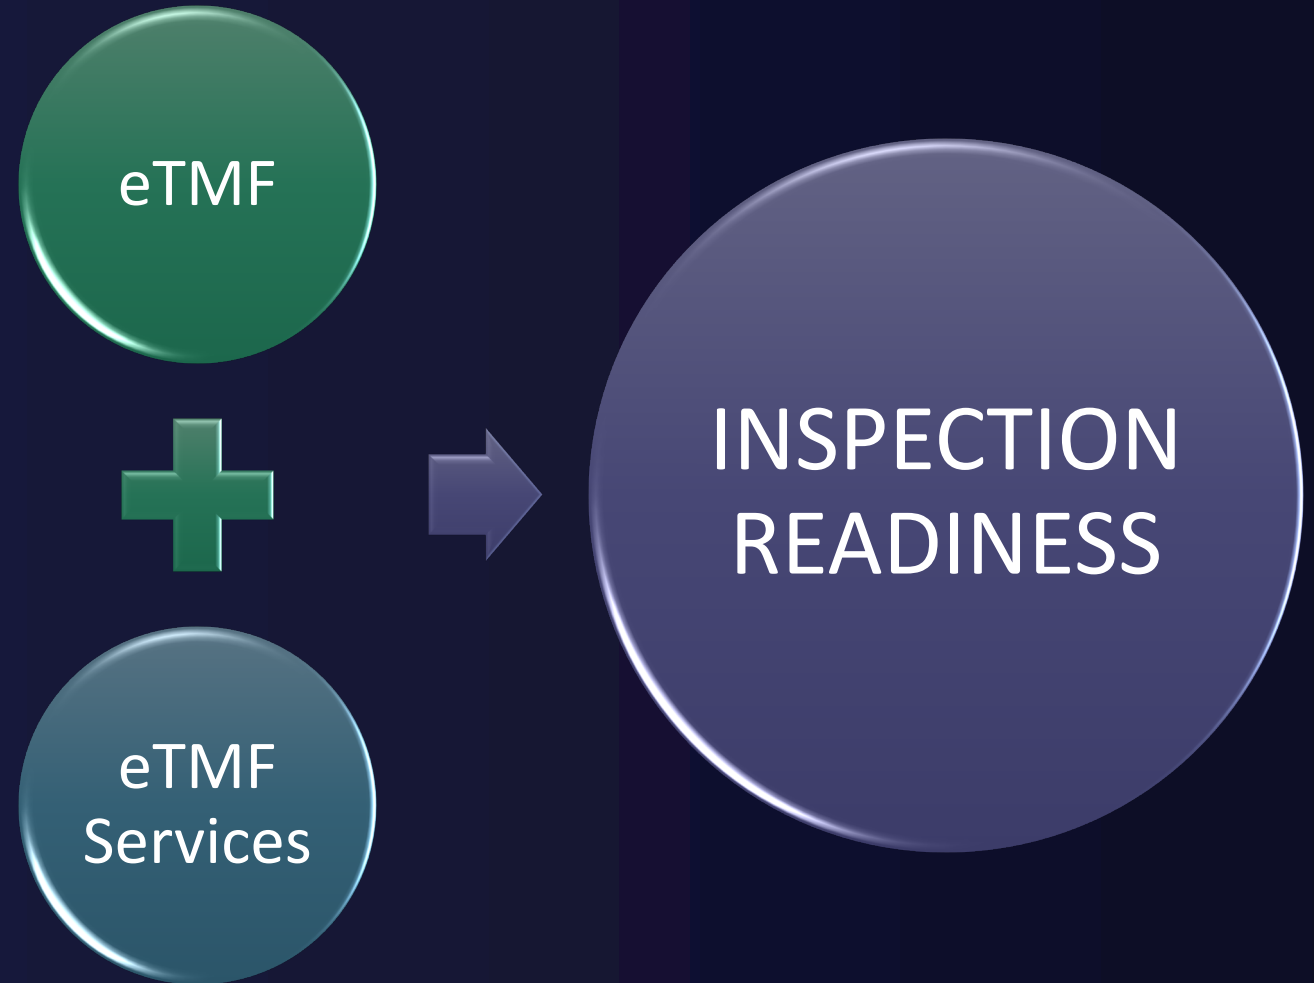

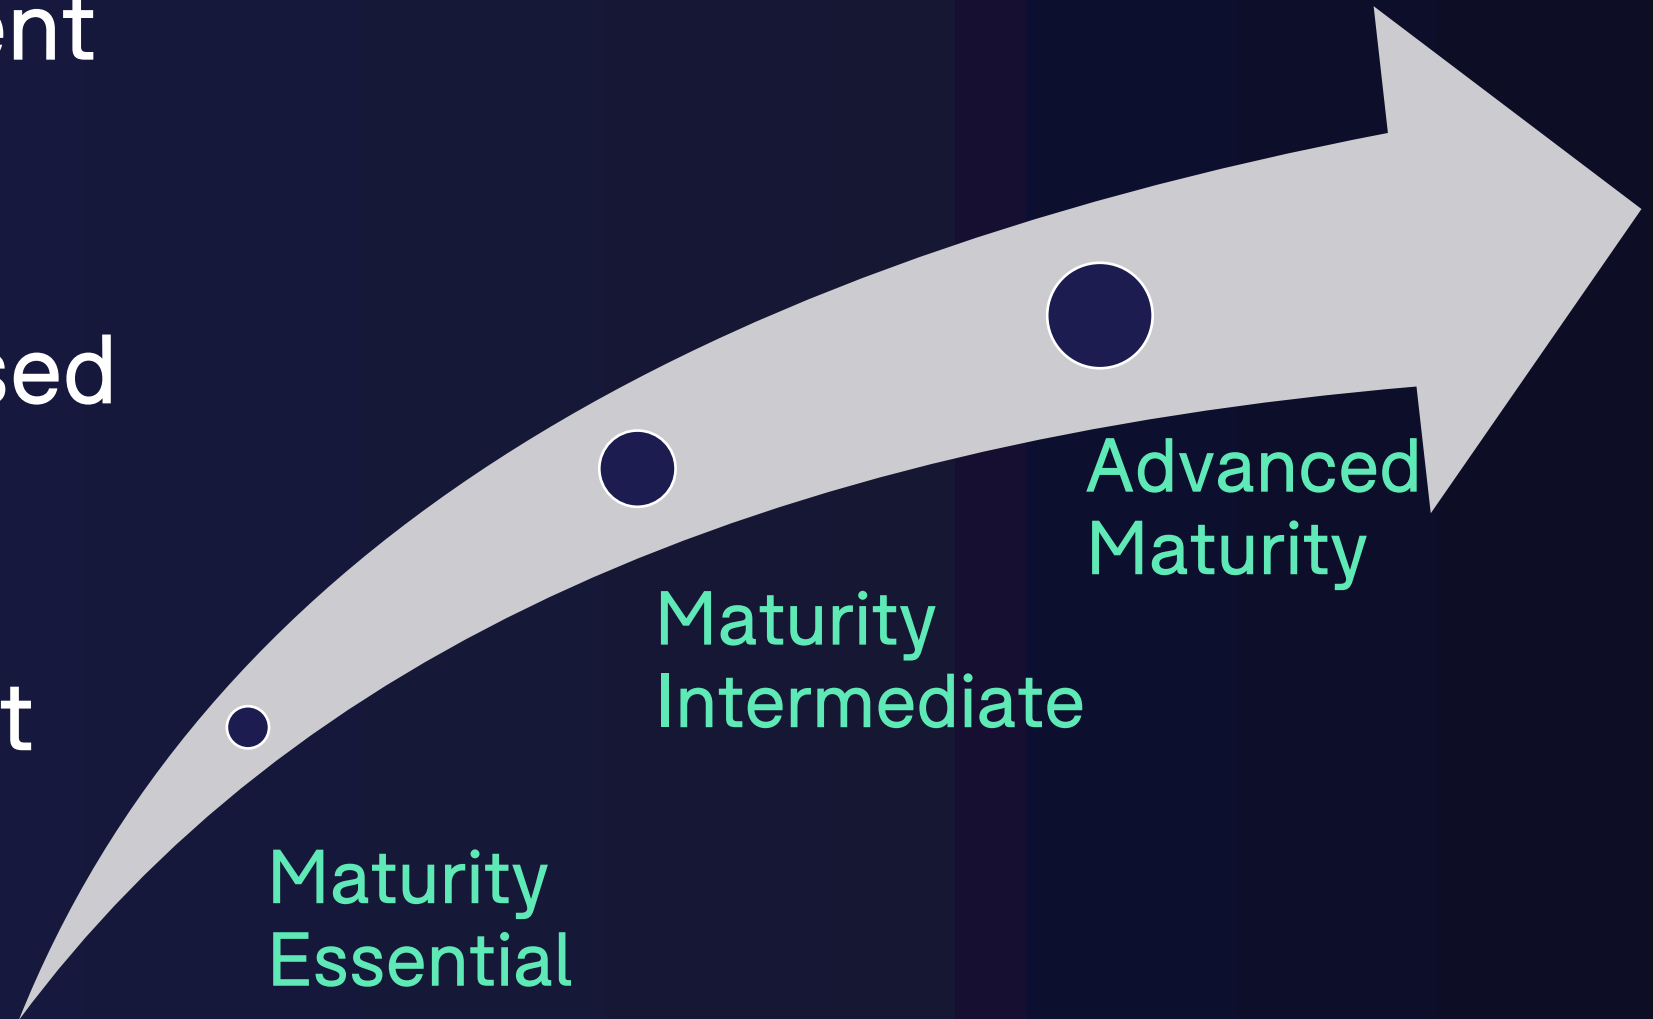

Montrium eTMF Connect

Montrium eTMF Services

An **eTMF system** supported by a strong **TMF culture and knowledge**, combined with the development of a **robust process** are the key factors in ensuring a successful inspection

Three different levels and packages of trainings based on your maturity starting point

- TMF PRINCIPLES AND GCP
- DOCUMENT QUALITY CONTROL
- TMF INDEX & REFERENCE MODEL
- eTMF PLAN
- BENEFITS OF AN eTMF

- RISK-BASED APPROACH
- TMF METRICS AND KPIs
- TMF MERGER & ACQUISITION
- QUALITY BY DESIGN TO TMF
- INSPECTION READINESS
- TMF STORYBOARD
- BRING TMF MANAGEMENT IN-HOUSE
- TMF LONG RETENTION

- TMF QUALITY CONTROL
- TMF CURRENT REGULATION
- TMF PROCESSES
- TMF DATA INTEGRITY
- OVERSIGHT THROUGH eTMF

Approach to a successful TMF process

Understand your maturity level

Define your vision

Re-design your process

eTMF Services to develop TMF process

Assessment

Health Check

Oversight

Quality

TMF process can be a challenging journey, but you are not alone. **Montrium's eTMF Services** can be your expert guide.
